## Description of Proposed Finished Grade Engineering

**Submittal of a detailed drainage plan is required to accompany this application. The drainage plan shall indicate the revised drainage patterns (spot elevations and/or contours) as well as proposed the finished grade. Modifications to designed channel flow and/or flood routing require supporting calculations and modeling.**

Engineer

I hereby certify that I have examined the approved drainage and grading plan(s) for the referenced lot. I certify that the proposed change will not be detrimental to the flood routing, stormwater management for the referenced subdivision or adjacent properties. The proposed changes will not require modification or be injurious to adjacent parcels or structures.

Note: Damages resulting from the granting of this change are the responsibility of the applicant and consulting professional engineer. By signing and submitting this application, the applicant agrees to hold Delaware County and Delaware County Engineer's Office free and harmless of any claims, damages and liabilities resulting from the proposed changes to finished grades and/or revised drainage.
