

Vision Statement

The Sawmill Parkway Extension Plan will be developed by the Delaware County Engineer's Office with careful consideration of the needs and desires of the community to best meet the long-range mobility needs of the region. Guided by the community's involvement, the Plan will allow for future construction of a roadway improvement and its necessary rights-of-way. The Plan will be responsive to the existing and future land use needs of the community and be sensitive to the priorities and goals of the various stakeholders in the Sawmill Parkway Extension Plan.
