

IMPORTANT NOTICE

This notification is to inform you that the planned controlled, engineered blasting at the Home Road Water Plant (aka Fourth Water Plant) project site is scheduled to begin mid-June 2025 and continue through Spring of 2026.

Please note that these controlled, engineered blasting activities will be closely monitored in accordance with the project requirements.

Although controlled, engineered blasting may be heard and/or felt near the construction site, vibration levels will be closely monitored to ensure they are within acceptable industry and regulatory limits for this type of construction.

Home Road Water Plant

If you have questions related to this project
or the controlled, engineered blasting
please visit the project website at

cbuswater.com

This website includes a frequently asked
questions (FAQ) page and a contact page
for public questions.
